

I am concerned regarding this issue of LPFM having priority over current FM translators. The station my family listens to is KLVA (aka K-LOVE) and uses this service. It is vital to my children - there is currently only 1 other station in the Phoenix area that offers what I call 'safe listening'. My children are 2,3,4,6,8, and 9 and I can have this station on 24/7 and know beyond a shadow of doubt that my children will never hear something they shouldn't. Above that, this station promotes strong moral values that I hold to be of utmost importance. Character quality is far more important to me than talk shows or sports events. That is the kind of service K-LOVE provides. I hope you will consider my children - the future of this country - when you make your decision. We need them to have character.
